

Grain: World Markets and Trade

Major Wheat Exporters' Sales Pace Ahead of Last Year

Note: Includes exports only for Canada and Australia and licenses as a proxy for EU sales.

World wheat trade for the year is currently estimated to decline by more than 4 million tons because of reduced imports by Russia and minimal imports by India and Pakistan which had bumper harvests. However, sales are up 10% in the first half of the year by the world's five major exporters. These exporters are expected to represent 86% of global trade this year.

Australia and Canada have posted strong sales as demand for wheat has strengthened. Argentina is more than one million tons ahead of last year's pace owing to strong sales to Middle Eastern markets. Alternatively, the EU is behind pace this year because of concerns over tight supplies of quality wheat and high domestic prices while U.S. sales have strengthened somewhat after an initial slow pace.

Wheat trade year statistics are on July/June years. Barley, corn, sorghum, rye, and oats trade year statistics are on Oct/Sept years. Rice trade year statistics are for the subsequent calendar year.

SITUATION AND OUTLOOK: COMMENTARY AND CURRENT DATA

WORLD WHEAT SITUATION AND OUTLOOK

World wheat trade in 2000/01 is estimated down 4.5 million tons from last year to 106.9 million. Global production is down 9 million tons while consumption is almost unchanged. Despite a global stocks drawdown in 2000/01 of more than 17.5 million tons, stocks in the five major exporting countries are down only 4.8 million tons.

Over the past month, wheat prices have increased slightly. Early January export quotes for #2 HRW FOB Gulf averaged about \$135 per ton. World wheat trade in 2000/01 is forecast up slightly from last month because of an increase in imports from the Ukraine and a few other countries. Global production is down 1.5 million tons from last month.

2000/2001 Trade Changes

Selected Exporters

- ◆ **Australia** up 500,000 tons to 16 million due to a strong export pace for the first half of the year.
- ◆ **Ukraine** down 200,000 tons to 300,000 reflecting a smaller crop.

Selected Importers

- ◆ **China** down 500,000 tons to 1.5 million based on slow purchases during the first half of the year.
- ◆ **Morocco** up 100,000 tons to 3.1 million based on the strong pace of shipments to date.
- ◆ **Ukraine** up 400,000 tons to 1 million due to a smaller than expected crop.

NOTES: Footnotes appear on last page of this circular. Imports are reported on an international year basis. All other data are reported using marketing years.

WORLD RICE SITUATION AND OUTLOOK

Global rice trade for 2001 is projected at 23.4 million tons, nearly unchanged from the previous year. Worldwide consumption in 2000/01 will increase narrowly year to year by 2.5 million tons. However global production is forecast to decline by 12.5 million tons (rough basis), largely due to a decrease in the estimate for China's 2000/01 production to the lowest in five years. This results in a 5.9 million ton decline in projected global ending stocks which is mostly accounted for by China and, therefore, is not likely to have a significant affect on international prices.

Huge supplies held by major exporters along with stagnant import demand have kept prices trading at recent record lows. The international market was quiet through the holiday season leaving nominal price quotes for Asian milled rice nearly unchanged. Over the past 6 weeks Thai 100B has ranged from \$189 to \$191 (FOB), while Viet 5% has ranged from \$169 and \$170 (FOB).

The export prices for U.S. long grain grade #2/4 percent has not changed month to month and remains at \$287 (FAS) per ton. Export prices for U.S. medium grain #1/4 California rice have also remained constant, holding at \$210 per ton.

2001 Trade Changes

Selected Importers

- ◆ **Russia** down 40,000 tons to 440,000 due to expected larger production in 2000/01.
- ◆ **Saudi Arabia** up 25,000 tons to 875,000 based on strong imports in 2000 which is expected to carry over into the new year.
- ◆ **Indonesia** down 200,000 tons to 1.6 million tons due to smaller than expected imports in 2000.

2000 Trade Changes

Selected Exporters

- ◆ **Thailand** up 270,000 tons to about 6.6 million tons based on Thailand's official trade data.

Selected Importers

- ◆ **Saudi Arabia** up 75,000 tons to 875,000, a near-record level, based on a stronger import pace through the third quarter of the year.
- ◆ **Indonesia** down 200,000 tons to 1.6 million tons based on a slow down in shipments during the second half of the year.

NOTES: Footnotes appear on last page of this circular. Production is on a rough basis; all other data are reported on a milled basis.

WORLD COARSE GRAINS SITUATION AND OUTLOOK

World coarse grain trade for 2000/01 is projected down nearly 3 million tons to 101.2 million tons, due to larger crops in several major importing countries, especially Brazil and Russia. World production is expected to drop sharply as reductions in Eastern Europe and China are only partially offset by bigger crops in the United States, Brazil, and the EU. Global consumption is expected to continue to grow to record levels and global carryout stocks are forecast down nearly 24 million tons.

Global corn trade is projected to be down marginally, at 72.1 million tons. US exports are projected to increase more than 5 million tons from 1999/00 levels, largely because of reduced competition from China and Eastern Europe. World barley trade is forecast to remain robust as Mid Eastern and North African demand continues strong. The EU will remain the largest supplier, although Australia and Canada are forecast to increase exports.

US Gulf FOB prices for corn have continued to rise over the last month and are now approximately \$100 a ton.

2000/01 Trade Changes

Selected Exporters

- ◆ **United States corn** down 1 million tons to 54.5 million due to increased competition from Argentina and Brazil.
- ◆ **Argentina corn** up 500,000 tons to 10 million because of strong sales from the 1999/2000 crop.
- ◆ **EU barley** up 500,000 tons to 10 million due to continued strong import demand by the Middle East and North Africa.
- ◆ **United States barley** up 100,000 tons to 850,000 because of a strong sales pace to date.

Selected Importers

- ◆ **Canada corn** up 300,000 tons to 1.3 million because of a smaller crop.
- ◆ **Egypt corn** down 200,000 tons to 4.5 million due to a slowdown in purchases.
- ◆ **Saudi Arabia barley** up 600,000 tons to 5.4 million because of a strong pace of imports.

Notes:

Wheat trade year statistics are on July/June years. Barley, corn, sorghum, rye, and oats trade year statistics are on Oct/Sept years. Rice statistics are rough basis; trade year statistics are for subsequent calendar year. Rounding errors in conversion from international units causes some discrepancies with World Board Supply and Demand Estimates.

Notes:

Stocks, exports, and consumption are expressed on a milled basis in marketing years. Trade is on a milled basis in calendar years. "Stocks as a Percent of Consumption" represents the ratio of marketing year ending stocks to total consumption. Trade year statistics since 1979/80 exclude intra-EU trade.

ENDNOTES TO GRAIN: WORLD MARKETS AND TRADE

REGIONAL TABLES

- 1) Includes Canada, Mexico, and the United States.
- 2) Includes Central America, the Caribbean, and South America.
- 3) Includes Azores, Cyprus, Iceland, Malta & Gozo, Norway, and Switzerland.

- 8) Includes Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, and Sri Lanka.
- 9) Includes all other Asian countries except South Asia.
- 10) Includes Australia, Fiji, New Zealand, and Papua New Guinea.

OTHER NOTES

Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

Current and historical data on the European Union in this issue refers to the EU-15.

Consumption statistics reflect total utilization, including food, feed, seed, and differences in marketing year imports and marketing year exports.

This circular was prepared by the Grain and Feed Division, Commodity and Marketing Programs, Foreign Agricultural Service, USDA, Washington DC 20250. Information is gathered from official statistics of foreign governments and other foreign source materials, reports of U.S. agricultural attaches and Foreign Service officers, results of office research, and related information. Further information may be obtained by writing the division or telephoning (202) 720-6219.

Note: The previous report in this series was the Grain: World Markets and Trade Foreign Agricultural Service Circular FG 12-00 December 2000. For further details on world grain production see World Agricultural Production, Foreign Agricultural Service Circular WAP 01-01 January 2001.

This circular is available in its entirety on the World Wide Web via the Foreign Agricultural Service Home Page. The address is:
